

ROCKY MOUNTAIN

Title

SnowSkate Sessions

Duration (Hours/CEUs)

2 days / 12 CEUs

Learning Connection Highlight

Teaching Skills, People Skills, Technical Skills

Course Description

This clinic is open to any discipline. It will be an opportunity to refine your perspective on the mountains and your sport. For snowboarders, it represents a way to explore our roots (skateboarding and surfing) in a venue that's familiar. The clinic structure will focus on mileage and experiential learning as we explore different tactics all over the mountain. If you're interested in something new and exciting that will turn heads everywhere you go, come join us. Snowskating is gaining serious momentum in the industry, and this is an opportunity to be a part of the future of this sport. As snowsports educators, we can play an instrumental role in its growth.

Recommended Preparatory Learning or Prerequisites

- Participants should be comfortable skiing/snowboarding on blue terrain

Prerequisite Course(s) and Skills

- PSIA-AASI Membership

Learning Outcomes

By the end of this clinic, successful participants will be able to:

ROCKY MOUNTAIN

- Participants will gain personal riding improvement by exploring different tactics in an all-mountain setting (Physical)
- Participants will have a true “beginners perspective” on snow as they try something new (Cognitive)
- Participants will have the opportunity to help grow an emerging Snowsport (and culture) through their experience. (Affective)

Learning Experiences

- Progressing from easier groomed runs to more difficult groomed runs
- Exploring terrain park features/ natural features for freestyle progression
- Ride through a variety of exercises and drills, assessing fun and functionality
- Engage in chair conversations revolving around growing this snowsport

Materials/Equipment needed

- Appropriate riding gear to be on snow all day.
- Insulated skate shoes or softer snowboard boots (loosely tied or well broken in snowboard boots work too)
- SnowSkate with leash (A limited number of SnowSkates will be available to Demo on a first come first serve basis from iDSK8s. Participants should request a SnowSkate when registering.
- Helmets are required.
