

ROCKY MOUNTAIN

Title

Snowboard Certification Update Clinic

Duration

2 Days/ 12 CEU's

Learning Connection Highlight

Teaching Skills, People Skills, Technical Skills

Course Description

The Goal is to help keep everyone on a similar page in terms of content, knowledge and understanding of certain concepts, theories and models that we all can use when teaching. Opportunity for personal improvement in riding, teaching and movement analysis directly related to your level of certification

Recommended Preparatory Learning or Prerequisites

- PSIA-AASI membership
- Level 2 or Level 3 Certified

Prerequisite Courses and Skills

- Level 1 Certification

Learning Outcomes

By the end of this clinic, successful participants will be able to:

- Keep up to date with the current riding, teaching and movement analysis standard of the certification you hold
- Learn what the exam process looks like today for the level of certification you currently hold
- Gain a deeper understanding of the current educational process
- Help you stay on top of your game to be a more effective instructor

Learning Experiences

- Ice breaker exercises to build rapport among the group and expose a variety of information useful for future exercises.
- Ride through current exam tasks
- Use current Movement Analysis and Personal Performance segments to practice using movement analysis skills
- Practice Teaching skills using Teaching assessment process

ROCKY MOUNTAIN

Materials/Equipment Needed:

- Appropriate riding gear to be on snow both days
- Helmets are required
